

Hifz Tip: Strengthen Before Moving On

Many students, while memorising their Sabak Para (the Juzz they are learning), start forgetting parts even though they revise it daily.

Golden Tip:

Do not move on to the next quarter of your Sabak until the current one is fully solid and free from mistakes

For example, if you have memorised almost half a Juzz, the next day do not begin new Sabak.

Instead, focus on reciting the full half fluently and without errors. Only once that portion is strong should you move forward

This method helps make your Hifz much stronger, in shā Allah
